Mr. Parks
Mr. Austin
Mr. Hibbs

Dear Mr. Thompson:

Re: Solid Waste Registration No. 30124
Non-hazardous Waste Facility Closure

We have reviewed your correspondence of October 21, 1985 concerning the planned closure of the following solid waste management units:

East Pond
West Pond
North Rod Mill Pond
South Rod Mill Pond
Construction Rubble and Blast Furnace Sludge Waste Piles

Our evaluation indicates that your closure activities should provide reasonable assurance of effective industrial solid waste management. You have satisfied the notification requirement of 31 TAC 335.6(g); no additional information is being requested by way of this letter. No further action is required on your part prior to physical closure of said units.

Questions should be referred to Marilee Parks at AC512/463-8276.

Sincerely,

Minor Brooks Hibbs, Chief
Permits Section
Hazardous and Solid Waste Division
